## Scientific coordinator:

**Ioannis Karakis, MD, PhD, MSc**

**Coordinating Department / Laboratory: Neurology**

**ioannis.karakis@uoc.gr**

## EDUCATORS:

Ioannis Karakis, MD, University of Crete  
Sofia Koukouraki, MD, University of Crete  
Efrosini Papadaki, MD, University of Crete  
Edward Faught, MD, Emory University  
Daniel Drane, PhD, Emory University  
Katie Bullinger, MD, Emory University  
Sotirios Mitropanopoulos, MD, Mayo Clinic  
Georgia Ramantani, MD, University of Zurich  
Stephan Schuele, MD, Northwestern University  
Vasileios Kokkinos, PhD, Rutgers University  
Andreas Alexopoulos, MD, Cleveland Clinic  
Nikos Haliasos, MD, Queen Mary University

In collaboration with multiple academic institutions in the United States and in Europe, this hybrid (in-person and via zoom) course will review the management of drug-resistant epilepsy (DRE). It will include principles and case based scenarios of rational pharmacotherapy with traditional (1<sup>st</sup> and 2<sup>nd</sup> generation) and novel (3<sup>rd</sup> generation) antiseizure medications, non-pharmacological treatments (ketogenic diet) and workshops on various neuromodulation modalities. Emphasis will be given to the basic tenets of presurgical evaluation for destructive (resections, ablations) or disconnective (corpus callosotomy, hemispherectomy) surgery, as well as to special populations (pediatric, pregnant women, elderly). There will be a welcome dinner on Tues 16 June 2026 evening and an optional excursion to the island of Spinalonga on Sat 20 June morning.
